DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a circuit arrangement for operating at least one LED in an electrical circuit at a service voltage which is greater than the forward voltage of the at least one LED, having, inter alia, the at least one LED being connected via a second reactance formed by a second resistance and a second capacitor to a second terminal of the service voltage; and between the two connections of the at least one LED and the two reactances a full-wave rectifier diode bridge of four diodes being switched (claim 1). The remaining claims 2-4, 8 and 9 are allowed by virtue of their dependencies from the independent claim. Hence, the examiner has allowed claims 1-4, 8 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
